

# Isolation

## Crowded House

You arrive  
Like a dragonfly  
Float above the grass  
Trembling still

Think you might  
Open up your heart  
Open up your heart  
Someday you will

Yes, there's always a way  
Yes, there's always a way  
To end this isolation

When you rise  
Like the Milky Way  
On a luminous night  
The epic unknown

Though I try  
Try to find a sign  
Of another life  
I am alone

There's always a way  
Yes, there's always a way  
To end this isolation  
One step away from everyone

If you could open it up  
You could connect it to us  
One step is more than enough  
To get a look in

You could be already gone  
I wish you would take me along  
To end this isolation  
To end this isolation

I try so hard to get it right  
Look for something in your eyes  
And I see it  
But you won't let yourself feel it

I wait for you to make a sign  
Let the door open in your eyes  
And I believe it  
That one day you'll step inside
