## **Pineapple Head**

## **Crowded House**

Detective is flat No longer is always flat out Got the number of the getaway car Didn't get very far

As lucid as hell These images moving so fast Like a fever So close to the bone I don't feel too well

And if you choose
To take that path
I will play you like a shark
And I'll clutch at your heart
I'll come flying like a spark
To enflame you

Sleeping alone
For pleasure, the pineapple head
It spins and it spins
Like a number I hold
Don't remember if she was my friend
It was a long time ago

And if you choose
To take that path
I will play you like a shark
And I'll clutch at your heart
I'll come flying like a spark
to enflame you

Sleeping alone
For pleasure, the pineapple head
It spins and it spins
Like a number I hold
Don't remember if she was my friend
It was a long time ago

And if you choose To take that path Would you come to make me pay?

I will play you like a shark And I'll clutch at your heart I'll come flying like a spark

I will clutch at your heart And come flying like a spark To enflame you
