

Sacred Cow

Crowded House

Deliberate provocation
I is what you gave to me
You got me going
You got me going

How could such a simple thing
Get so out of control
You let me down again
You let me down again
The painted figure that glows in the dark

I know my place inside your heart
No you're not mysterious now
I don't worship that sacred cow
In my head

In my head
In my head
You'd never know it
You'd never know it

I went home in a jealous rage

You know what's good for me
You were rolling on the glass in a younger age
I know you're too good for me

Cos I have seen inside your heart
Religious figues that glow in the dark
No you're not too precious now

And I don't worship that sacred cow
Go and try as you may

To get a sharp shift on Judgement Day
You let me down again
The painted figure that glows in the dark

You let me down again
I know my place inside your heart
No you're not too precious now
I don't worship that sacred cow

Go and try as you may
Sacred Cow

To get a sharp shift on Judgement Day
Judgement Day
Coming Your Way
