

## Anthem of the End

### Crown Of Glory

Beyond my visions lies the fright  
It's turning all my senses  
Inside my wishes ocean wide  
There is a place to hide to

And on the edge of time  
I saw the future sign  
I looked at all the answers  
Twilight misery  
And on the edge of time  
I saw the secret sign  
I heard it through the misty curtains of eternity

I have heard the anthem calling  
Lead by history  
I fell into a vision of the end  
I promise my friend we'll change it

I am still here to face the fear  
To find my piece of heaven  
Remind the past we would recall  
A promise for the future
