

In Distortion We Trust

Crucified Barbara

Run fast, you're going down
We are the superstars from Sheep Valley town
The noise will blow your speakers away
If you don't like the shit you don't have to stay

Wicked sounds on the gasoline drums
The Evil eye is watching you
Strings of steel Forces you down
The Crap is mad and it's shouting out loud

Run fast, you're going down
We are the superstars from Sheep Valley town
The noise will blow your speakers away
If you don't like the shit you don't have to stay
