

Into the Fire

Crucified Barbara

I am your fantasy, the essence of your dreams
I like to play it hard, I'm everything you need
You dream of sanity, of love and pleasant times
But I'm not here for you, no that would be a lie

Don't you tell me how to do things
Don't you try to kill my flame

Into the fire
Don't steal my thunder
I'm wild, I'm crazy
Watch me running
Into the fire
Can you feel the heat
I'm wild, I'm burning
Watch me running free

I am the perfect catch, the spirit of the night

But I do not agree on what you think is right
You want me to shut up, smile and blink my eye
But I'm not here for you, no that would be a lie

No mans' sweetheart
Pleasin' who I want but hey don't tell me how
You can start a fire, I can blow it out
I ain't gonna feed your flame
I'm always burning brighter than you

Into the fire
Don't steal my thunder
I'm wild, I'm crazy
Watch me running
Into the fire
Can you feel the heat
I'm wild, I'm burning
Watch me running free
