

## Obscure Evil

Cruel Force

At the gates of hell  
With the black magic rites  
Where the throne of darkness  
Destroys every light  
Total desecration  
Satan spreads his wings  
Black death reigning  
Final slaughter

Obscure demons raging from hell  
Forcing the land with spell  
Pandemoniums sacrifice  
Iron Fist will rule the night  
Obscure Evil

Burn the last candle  
Of madness and reprise  
For the lord of evil  
With strange aeons eyes  
Cruelty  
Oh so nice  
Burning angels  
Fallen wings

Obscure demons raging from hell  
Forcing the land with spell  
Pandemoniums sacrifice  
Iron Fist will rule the night  
Obscure Evil

Burning angels  
Falling down on earth  
While the throne of might  
Reigns the land  
Black death  
Spreads everywhere

Obscure demons raging from hell  
Forcing the land with spell  
Pandemoniums sacrifice  
Iron Fist will rule the night  
Obscure Evil
