

## City Girl

Crush Luther

You stand ground like a warrior  
But the way you listen like you've never heard anything  
And the worst is you hold my hand  
You're like nobody I've ever know  
But I aint no city boy

I don't mind how you're knowing me  
But the way you're acting how you never stop holding me  
And the worst is you use both hands  
City girls aren't supposed to though

So if we're in love I suppose  
I'm out of here before I get too close  
And if we're in love I suppose  
You're the worst city girl I've known

If I'm one and one and two is me and you  
Then three's a place I swore I'd never get to  
And the worst is you changed my mind  
I've never been much the nervous kind  
But you ain't nervous  
It's a fast world where you're from you speed along  
Make you run so fast you can't focus on  
And the worst is, no I change my mind  
The best is I still get all your time

So if we're in love I suppose  
I'm out of here before I get too close  
And if we're in love I suppose  
You're the worst city girl I've known

So shame on me for getting too close  
Shame on you and you're bedroom window  
And your body so close to me  
I shudder and I dream of the city  
All along the way, you've been nothing but trouble  
Oh, but somehow here we are

So if we're in love I suppose  
I'm out of here before I get too close  
And if we're in love I suppose  
You're the worst city girl I've known (4x)
