

Don't Fight About It

Crush Luther

Eight in the morning brother
You wanna waste your day?
Get yourself started brother
Just trying to tell you straight
Not trying to test you brother
Do what you feel you should
But the shit you do is rather easily misunderstood

Don't fight about it, don't fight about it
Just wait a minute
Don't get hostile
You should think this through much better if you want to do that
(If you want to do that)
I'm a real cold killer when I want
(I'm a real cold killer)
You should think this through much better if you want to do that
I'm a real cold killer

Messed up my morning brother
A man's got things to do
When my morning thing's all over
Got things all afternoon
Don't like that mad face brother
Say what you got on your mind
Don't like to dance much brother
But I'll sort you out alright

Don't fight about it, don't fight about it
Just wait a minute
Don't get hostile
You should think this through much better if you want to do that
(If you want to do that)
I'm a real cold killer when I want
(I'm a real cold killer when I want)
You should think this through much better if you want to do that
I'm a real cold killer

Late in the evening brother
Done this a thousand times
Drew your bedroom size bigger
So I get yours and you get mine
Just throw my pillow over
Said you don't think you can?
That don't work for me brother
You best put up your hands

Don't fight about it, don't fight about it
Just wait a minute
Don't get hostile
Don't fight about it, don't fight about it
Just wait a minute
Don't get hostile
You should think this through much better if you want to do that
(If you want to do that)
I'm a real cold killer when I want
(I'm a real cold killer when I want)
You should think this through much better if you want to do that

(If you want to do that)
You should think this through
You should think this through much better if you want to do that
(If you want to do that)
I'm a real cold killer
(I'm a real cold killer)
You should think this through much better if you want to do that
I'm a real cold killer
