

Get It On

Crush

Man the place is jumpin', can't you feel it in your soul.
Can't you feel your body groovin' when the music takes control?
When it feels so good inside you can tell by the look in your eyes.

Won't you join me on the dance floor?

Chorus

Let's get it on again, let's dance the night away

And hope it won't end.

Let's get it on again, groove to the music.

Move your body baby; you know you look so good tonight.

I love the way you shake it when you move your body right.

Won't you help me celebrate girl you know I just can't wait?

Won't you join me on the dance floor?
