

## Little World

Cryptic Slaughter

Superior attitudes  
Change the way to think  
If you don't get your way  
You'll just sit back and sulk

Do you know who I am?  
Do you really care?  
You think you've got me figured out  
You think your world is fair

You live your little world  
That's what I don't get  
You make it all for yourself  
So no one else can fit

You are the majority  
The world consists of you  
We'll just wait and see  
Who's been played the fool

You've built your little world  
Now you're stuck for good  
Now there's no coming back  
There's nothing you can do
