

Digital World

Crystal Ball

[Music: Sweeney / Leach, Lyrics: Sweeney]

An old man's dream
A future revelation
Creation of the new machine
Cyber screams, hard megabyting
Your eyes dissolve into the screen

All the systems and all sub-routines
All replications, nothing's what it seems

Digital world - digital dreams
Digital world - cybernetic evolution
Digital world

All we want are virtual constructions
Living in computer wastelands
Red alert and panic reactions
The virus lives inside our dreamworld
