

Find Your Ground

Crystal Ball

Sometimes when you're crying
Unwounded you bleed
There's no place for hiding
For the poisonous plague you breed

The dark is your only friend
And pain never ends
I told you to leave this way
Right today

Find your ground
It'll guide your way back home
Find your ground
Until the sun goes down

Sometimes when you're riding
The dark wings of death
You'll never be fighting
Against the last drawn beneath

There's something going wrong
'Cause you're alone
I told you to leave this way
Right today

Find your ground
It'll guide your way back home
Find your ground
Until the sun goes down

All the things you keep inside
Are pieces of yourself

Trust your heart, find yourself
And you will hold the key to liberty
