

# He Came To Change The World

Crystal Ball

[Music: Sweeney / Leach, Lyrics: Leach]

Born in a stable - among the poor  
A star showed them the way  
The kings kneeled - before this child  
Touching all their souls

The Judas kiss betrayed his life  
Crucified for some silver

He came to change the world, he traded pain for love  
He came to change the world, he tried to save us all

The not so holy wanted him to die  
They tried to send out a warning  
The torturers will always be cursed  
His sadnes lives on today

He came to change the world

Alive - he arose - from the dead - to live forever
