

# Queen of the Night

## Crystal Ball

She wakes from a dream  
Another sleepless night  
The moon throws its beam  
A silver ray of light

Her memory is just a scheme  
All she feels is fright  
The radio plays a theme  
From a strange old rite

Love she hoped to find  
Bloodshed is what she's got

She's a queen of the night  
From dusk 'til dawn she'll ride  
She's the queen of the night  
Came from the other side

Shadows start to gleam  
Like the marks of her bite  
She cries a silent scream  
Can't resist his might

Love she hoped to find  
Bloodshed is what she's got

She's the queen of the night  
From dusk 'til dawn she'll ride  
She's the queen of the night  
Came from the other side

Eternal life  
You give and take  
Living among the damned  
Will it never end?

She's the queen of the night  
From dusk 'til dawn she'll ride  
She's the queen of the night  
Came from the other side

She's the queen of the night  
From dusk 'til dawn she'll ride  
She's the queen of the night  
Came from the other side

She's the queen of the night
