

Shine On

Crystal Ball

In the beginning
Couldn't trust the words
It took me by surprise
The cross you've got to bear
Is a heavy load

Don't stop fighting - today

Shine on - shine on
Like a star in the glistening sky
Shine on - shine on
Don't let the night pass you by

"I'll never leave you"
Is what you said to me
Just closed my eyes and cried
It's harder that words can say
"Gotta fight for your life"

Don't stop the fighting - today

Shine on - shine on
Like a star in the glistening sky
Shine on - shine on
Don't let the night pass you by, pass you by

Shine on - shine on
Like a star in the glistening sky
Shine on - shine on
Don't let the night pass you by

Shine on - shine on
Like a star in the glistening sky
Shine on - shine on
Don't let the night pass you by, pass you by
