

## Wasn't It Love

Crystal Ball

The postcard's in my hand  
But I still can't understand  
Another lonely day has passed without a sign

And my heart i bleeding  
And my soul is frozen  
I'm living for the day when you're back

All I have inside is my real love for you baby  
I ask myself - why did you go

Wasn't it love - wasn't it meant to be  
I'll try to hide my pain tonight  
Don't know i it's right  
Wisn't it love - wasn't it meant to be  
I can survive if you won't try  
Trust in me tonight

You're so far from home  
And I've heard you're on your own  
I wanna know what you intend  
I'm missing you

[Repeat bridge & chorus]

I used to be - the man for you  
But you left me alone  
And I want you back with me  
Where you belong

[Repeat chorus]

Wasn't it love - you are the one for me  
So hurry now - I'm waiting niw  
Your arms are all I need
