

# Finally Got It Right

Crystal Bowersox

Don't know you all that well  
But I'm falling this I can tell

They say I'm crazy...They say I'm blind  
But I think this time it's right  
Yes I know this time it's right

I finally got it right

Would you mind if I stayed the night  
Go ahead turn out that light

Hold me in your arms  
Cuz I wanna stay here in your arms

Hold me close  
Squeeze me tight  
Cuz this time  
I finally got it right

I adore you...Want to explore you  
Every inch of your loveliness  
In the morning when I rise  
I see that sun up in the sky  
Makes me want to run 'n hide

Under the covers we'll be lovers  
Touching lips...Finger tips  
Driving me crazy  
You're my baby

Can I keep you  
I wanna keep you

I finally got it right

Would you mind if I stayed the night  
Go ahead turn out that light

Hold me in your arms  
Cuz I feel so safe in your arms

Hold me close  
Squeeze me tight  
Cuz this time  
I finally got it right

This time  
I finally got it right

This time  
I finally got it
