

# Interstellar War

Crystal Eyes

It's the golden age of the human race  
The time has come to conquer space  
'cause we have learned to navigate  
In time and space, through stargates

Our starships fill the skies in countless worlds  
Our warlords burn the worlds in countless galaxies  
Solar Systems we bring to an end  
Through war and destruction we will transcend

All over universe we are bringing war  
To every galaxy we explore  
Through windows in warp space  
We reach the most distant place  
With our mission: Interstellar war!

In every corner of the universe  
Planets die, explode and burst  
Billions of life forms meet their fate,  
Due to our hunger to dominate

The universe is now in our grasp  
The last resistance is falling fast  
The days of glory are drawing near,  
When man shall rule with pain and fear
