

A New Way to Say I Love You

Crystal Gayle

It would be easy to call you an angel
Or a vision of love sent my way
If I could just be a poet for a moment

Maybe I could find a new way to say I love you
There's gotta be a new way to say I love you
Gotta be a new way to say I love you

I could start by painting your portrait
Or a sculpture that's made out of clay
And if I knew how to write you a love song

Maybe I could find a new way to say I love you
Cos there's gotta be a new way to say I love you
There's just gotta be a new way to say I love you

I know you've probably heard this many times before
Many people mean it but I, I mean it more
I want you for a lifetime and now you know for sure
But how can I tell you, how can I tell you

Like an artist in search of perfection
I can't say it all in a day
But if you just stay with me for a lifetime

Maybe I could find a new way to say I love you
Cos there's gotta be a new way to say I love you
There's just gotta be a new way to say I love you
Maybe I could find a new way to say I love you
Cos there's gotta be a new way to say I love you
There's just gotta be a new way to say I love you
Maybe I could find a new way to say I love you
Cos there's gotta be a new way to say I love you
There's just gotta be a new way to say I love you
