

# You Were There for Me

Crystal Gayle

Every time I ever saw my dreams fall apart  
I picked up all the pieces on my own  
But when I felt you by my side something took my heart  
For the first time in my life I wasn't all alone

You were there for me  
You did more than care for me  
When I needed you, you had love to spare for me  
Baby, you were there for me  
When there wasn't a prayer for me  
And it was then I knew I loved you  
You were there for me

I never put my faith in anybody before  
But I felt your spirit reaching out to mine  
I tasted magic in your kiss but I wanted even more  
And that's what you gave to me when I hit the bottom line

You were there for me  
You did more than care for me  
When I needed you, you had love to spare for me  
Baby, you were there for me  
When there wasn't a prayer for me  
And it was then I knew I loved you  
You were there for me

I had all this love inside me  
It took you to bring it out  
Cos when I found your strength to guide me  
I learned what love is all about

You were there for me  
You did more than care for me  
When I needed you, you had love to spare for me  
Baby, you were there for me  
When there wasn't a prayer for me  
And my whole life through  
I promise I'll be there for you

You were there for me  
You did more than care for me  
When I needed you, you had love to spare for me  
Baby, you were there for me  
When there wasn't a prayer for me  
And it was then I knew I loved you  
You were there for me
