

# Fly Away

Crystal Kay

Lift me high and higher  
You take me on your wings, and make me fly  
Where are you going ?  
You never tell me where, we're heading for  
Search to find a dream  
Seek to find an answer  
No matter where we get to  
There'll always be a new day, new day

La la la la li la li la  
Something for us dreamers dreamers dreamers

La la la la li la li la  
Something for us dreamers dreamers dreamers

Keep me in your heart and I will always be here with you  
Share us with each other, we know we're together  
Let's fly another day  
Let's fly another dream  
Let's fly another way  
Forever keep on going, moving, because we have love

See me through a new world  
You discover more and more about yourself  
What did you find ?  
No need to ask the question  
Wisdom knows  
Following a dream  
Following an answer  
Whatever choice we make  
There'll always be a new way, new way

La la la la li la li la  
Something for us dreamers dreamers dreamers

La la la la li la li la  
Something for us dreamers dreamers dreamers

Keep me with your soul, and you will never be alone  
Share us with each other, we are other together  
Let's fly another day  
Let's fly another dream  
Let's fly another way  
Forever keep on going, moving, because we have love

Keep me in your heart and I will always be here with you  
Share us with each other, we know we're together  
Let's fly another day  
Let's fly another dream  
Let's fly another way  
Forever keep on going, moving, because we have love.
