

Father And A Friend

Crystal Lewis

It's a cloudy day and I feel afraid
I have to close my eyes
I don't want to hurt again
I really just need a friend
You were there for me
You were there to see
When I was crying out
Just to be close to you
Just to be loved by you

Daddy don't you know I love you
It takes someone to be
A father and a friend
I love you
You were everything to me
You were everything
Remember the night when you held me tight
I told you through my tears
I felt unwanted
And you said you wanted
To be there for me
To be there to see
My life to blossom forth
The beauty you knew was there
And you took the time to care
