

## Secret Hideaway

Crystal Lewis

Precious moments when it's just we two  
At our secret hideaway  
Telling secrets just talking to You  
I love to meet you everyday  
At our secret hideaway

Even those who love me most  
Don't know me like you do  
My darkest fears my highest hopes  
I can tell them all to you  
When trouble comes like a rainy day  
I run to our secret hideaway and listen  
You tell me what to do

Precious moments when it's just we two  
At our secret hideaway  
Telling secrets just talking to You  
I love to meet you everyday  
At our secret hideaway

At times I fail I feel so low  
And think could you still care  
My guilt becomes a heavy load  
It's far too much for me to bear  
The accuser comes tries to block my way  
I run to our secret hideaway You'll listen  
And forgive me when I've failed

Precious moments when it's just we two  
At our secret hideaway  
Telling secrets just talking to You  
I love to meet you everyday  
At our secret hideaway

A secret place that no one else can find  
A place that's safe where I can leave the storm behind  
A place of peace to ease my troubled mind  
A place where I can feel your heart as you touch mine
