

# Someday

Crystal Lewis

Someday you got to make a choice  
I said someday a really big choice  
Oh someday, what you gonna do with your life?

Someday when your heart is aching  
Someday when it's almost breaking  
Someday, what you gonna do with your life?

Peace comes from knowing that your loved from above  
And when you find the answer, you'll know what I'm talking of

Someday, keep you mind open, brother  
And someday you will see  
He came down to give His life for you and me

Someday, well, the clock keeps tickin'  
Someday when you been takin' a lickin'  
Someday, what you gonna do with your life?

Someday, you got to make a choice  
I said someday a really big choice  
Oh someday, what you gonna do with your life?

What you going to do with your life?  
What you going to do with your life?
