

# Shattered Shine

Crystal Stilts

Shape shifting city stretches and bends the night  
Figures fly past through space, faces shine with shattered light

A dream transmigrates it's way in the dark  
Twisting it's secret course all through the city's heart  
Shine shattered shine  
Shine shattered shadow

Shape shifting city stretches and bends the night  
Figures fly past through space, faces shine with shattered light

A dream transmigrates it's way in the dark  
Twisting it's secret course all through the city's heart  
Shine shattered shine  
Shine shattered shadow
