

# Out of the Shadows

Crystal Tears

Lost in illusions, fear is the key  
Blood-virus souls hypnotized  
Land of confusion, dying new breed  
Embrace the horror of reality

Blinded by ambition  
Self-greed's on a mission  
Balance on a razorblade

Out of the shadows - They can life you up and tear you down  
Out of the shadows - There's no promised land but killing ground  
Out of the shadows - You are building castles in the sand gotta get  
Out of the shadows - It's a left-destruction nowhere land

Tears of the angels, choirs of the dead  
When life and death will collide  
Our revolution, twisting insane  
Embrace the sickness of it all

Out of the shadows...

Out of the shadows...
