

# Blood Of The Heroes

Crystal Viper

Walls of the castle were no longer strong  
But the enemies will not break 'em down  
He knew it would happen 'cause the peace was too long  
He was sure - the war will begin at night!

With wild hearts and with swords ready to kill  
They weren't afraid - so brave were these knights  
They promised to defend the hill and the castle:  
"We're ready to fight! We're ready to die!"

Blood of the heroes!  
We cannot forget  
Blood of the heroes!  
We will hail their names  
Blood of the heroes!  
Eternal and proud  
Blood of the heroes!  
Forever and ever unbound

The land was burning, people were dying  
Wind brought there the smell of their burning homes  
It was the last time to look at the sky  
To find a better place for their souls

"Enemies are standing in our big gates!  
I prefer to die than to be a slave!  
Yes, we are too weak to fight, it is too late  
I'll follow my brothers...even to hell!"

Blood of the heroes!  
We cannot forget  
Blood of the heroes!  
We will hail their names  
Blood of the heroes!  
Eternal and proud  
Blood of the heroes!  
Forever and ever unbound

Now it's time to look in the eyes of death  
To fade away  
They lost everything, their lives and homes  
In one day...

Blood of the heroes!  
We cannot forget  
Blood of the heroes!  
We will hail their names  
Blood of the heroes!  
Eternal and proud  
Blood of the heroes!  
Forever and ever unbound
