

# Secrets Of The Black Water

Crystal Viper

It's so black  
Hot like hell  
Unholy water calls for you  
Take a look just one time  
And all of your dreams will come true  
Look into black water!

Come closer! Dance with black waves!  
You will live forever  
Just one step into black lake  
You'll give me your soul  
Come to me! Dance with waves!  
We can rule together  
One step into black lake  
Now you're mine and there's no way back!

I can feel all of your fears  
Don't be afraid, so close you are  
Just one step into depth  
You know, gates of hell are not far...

Now drown into black water!

There's no way out from here  
There's nothing left for me  
All the things that I loved are simply gone  
Servant?! Don't want to be!  
I'll give you back my dreams  
But you don't listen! Why?  
What have I done?!

Come closer! Dance with black waves!  
You will live forever  
Just one step into black lake  
You'll give me your soul  
Come to me! Dance with waves!  
We can rule together  
One step into black lake  
Now you're mine and there's no way back!
