

# Come On Down

Crystal Waters

Don't you wanna party, body to body?  
We all need some healin' baby, touch the ceilin'  
When the beat is thumpin' keep your body jumpin'  
DJ's got the rhythm come on, get with'im

It's just a feeling, just a feeling, what is this feel that I feel?  
That is real when you're near? Love that you're near  
And when I close my eyes, it's all that I hear

Come on down, come on down  
Hey, don'tcha wanna party? Party with me  
Come on down

Yes, you are the answer, baby, there's no question  
Magic seems to happen, when we're dancin'  
The music's got me swayin', love has got me prayin'  
Tell me what the deal is, come on, let's hear it

It's just a feeling, just a feeling, what is this feel that I feel  
That is real when you're near? Love, that you're near  
And when I close my eyes, it's all that I hear

Come on down, come on down  
Hey, don'tcha wanna party? Party with me  
Come on down

Come on down, come on down  
Hey, don'tcha wanna party? Party with me  
Come on down

Come on down and dance, let us make a romance  
Let the music come and move ya, let the beat get into you  
Come and share with me, come and dare with me  
There is somethin' 'bout tonight and I know that it's right

It's just a feeling, just a feeling, what is this feel that I feel  
That is real when you're near? Love that you're near  
And when I close my eyes, it's all that I hear

Come on down, come on down  
Hey, don'tcha wanna party? Party with me  
Come on down, come on down  
Shake it loose and let it go  
Come on down, come on down

Come on down, come on down  
Hey don'tcha wanna party? Party with me  
Come on down, come on down  
Shake it loose and let it go  
Come on down, come on down

Come on down, come on down  
Come on down, come on down

It's just a feeling, just a feeling, what is this feel that I feel?  
That is real when you're near? Love that you're near  
And when I close my eyes, it's all that I hear

Come on down, come on down  
Hey, don'tcha wanna party? Party with me  
Come on down, come on down  
Shake it loose and let it go  
Come on down, come on down

Come on down, come on down  
Hey, don'tcha wanna party? Party with me  
Come on down, come on down  
Shake your blues and let it go  
Come on down, come on down
