What I Need

Crystal Waters

I said I'm tired and lost
I said I'm sick and tired
I'm tired of feeling the same

Well, I've been searching Been looking so long Forgot what the hell What I was looking for

Uptight, nothing right Can't sleep, can't eat All night in bed I cry Need somebody by my side

I feel my heart and soul
I feel the beat
I wish someone would give me
What say? What say?

What I need, I need
What I need, I need
I need something to come over me
Lift me up and set me free

Someone who can give me What I need, I need What I need, yeah

I said I'm lonely
And I don't believe
I've been waiting long
For someone to believe in

But I been talking Been talking so long I forgot what the hell What I was talking 'bout

I'm uptight, nothing right Can't eat, can't sleep All night in bed I cry Need somebody by my side

I feel my heart and soul
I feel the beat
I wish someone would give me
What I say, what I say
What I need, I need
What I need, I need

I need something to come over me Lift me up and set me free Someone who will give What I need, I need

What I need, I need

I need something to come over me

Lift me up and set me free Someone who will give What I need, I need What I need, I need

I said I'm uptight, nothing right Can't eat, can't sleep All night in bed, I cry Need somebody by my side

I feel my heart and soul I feel the beat I wish someone would give me What I say, what I say

I said I'm uptight, nothing right Can't eat, can't sleep All night in bed, I cry Need somebody by my side

I feel my heart and soul
I feel the beat
I wish someone would give me
What I say, what I say

I said I'm uptight, nothing right Can't eat, can't sleep All night in bed, I cry Need somebody by my side

I give my heart and soul I give 'em me I wish someone would give me What I say, what I say

What I need, what I need, I need I need something to come over me Lift me up and set me free Someone who will give What I need, I need What I need, yeah

I need, what I need I need, I need What I need, I need I need, I need What I need, I need

I need, I need
What I need, I need
I need, I need
What I need, I need
