

## Burning Bridges

Crystallion

I know what I believe in  
I hope you know it too  
Just listen to the call  
And you know now what to do  
I see my brothers standing  
I see them everywhere  
The time is right for us  
Raise your hands into the air

Livin' in a world of danger  
With a heart that's full of fire  
Just another way to carry on  
Gaze into the dragon's eye  
It's blinded by desire  
Take your chance now children of the sun

We are back, back on the street again  
Hold on to your dreams my friend  
The burnin' of bridges it has just begun  
Just open your eyes and see  
A world far from misery  
Our army is rising whatever will come

Driftin' through empty spaces  
Through clouds and starlit skies  
Above the wintersun  
Where the mighty dragon flies  
The wind blows in our faces  
Our hearts are filled with pride  
A new age will appear  
And the truth is on our side

Livin' in a world of danger  
With a heart that's full of fire  
Just another way to carry on  
Gaze into the dragon's eye  
It's blinded by desire  
Take your chance now children of the sun

Together, forever, I want it now or never  
Tonight the time is right for fightin'  
The fire, desire, this flight will take you higher  
Don't be afraid it's tantalizing
