

Boy Boy (I'm the Boy)

Culture Club

Words that pull the trigger
Fear the haunting sound
Haunts you to consider
Love might bring you around to
Face a blind emotion
Words like hey let's try
Words like thinking it over
They just don't apply

I'm the boy you made me
I'm the boy, I'm the boy
I'm the boy you made me
I'm the boy, I'm the boy

Love is what you make it
Love the overflow
Play if you can take it
Some they just don't know if
All the rules they're making
Break somebody's heart
What's the use in taking
Babies fall apart

I'm the boy you made me
I'm the boy, I'm the boy
I'm the boy you made me
I'm the boy, I'm the boy

You made me realise
That love is just a word
That goes unheard in a situation
Where love is nothing
And you are all I can see

This boy's in love with you
You're everything I can see
This boy's in love with you
You have taken it all away from me
