

## Boy Boy (I'm the Boy)

Culture Club

Words that pull the trigger  
Fear the haunting sound  
Haunts you to consider  
Love might bring you around to  
Face a blind emotion  
Words like hey let's try  
Words like thinking it over  
They just don't apply

I'm the boy you made me  
I'm the boy, I'm the boy  
I'm the boy you made me  
I'm the boy, I'm the boy

Love is what you make it  
Love the overflow  
Play if you can take it  
Some they just don't know if  
All the rules they're making  
Break somebody's heart  
What's the use in taking  
Babies fall apart

I'm the boy you made me  
I'm the boy, I'm the boy  
I'm the boy you made me  
I'm the boy, I'm the boy

You made me realise  
That love is just a word  
That goes unheard in a situation  
Where love is nothing  
And you are all I can see

This boy's in love with you  
You're everything I can see  
This boy's in love with you  
You have taken it all away from me
