

Colour by Numbers

Culture Club

When I looked in your eyes
Felt the spirit of man
Demanding more than just a smile
Took a chance for a while

Speaking in tongues
That float us down rivers
The past will remind us
All colors we chose

When I told you those lies
Felt the spirit of love
Demanding more than compromise
Took a chance for a while

Speaking in tongues
That float us down rivers
The past will remind us
All colors we chose

Some people say that the way that we live
Is out of this place
And some people say that the way that we live
Is blinded by fate
All colors we chose
