

Don't Talk About It

Culture Club

I was staring at the people
Lost and terrified
Turned and saw you smiling
My heart was terrorised
Lust among the millions
Another suicide

When I think that love was there
Don't wanna talk about it
Don't wanna talk about it
The pain we share
While they just talk about it
While they just talk about it

A hand reached out to touch me
A letter hit the pile
I felt my life revolving
Like fingers in a dial
Just then I stopped believing
But only for a while

When I think that love was there
Don't wanna talk about it
Don't wanna talk about it
The pain we share

While they just talk about it
While they just talk about it

When I think that love was there

Don't wanna talk about it
Don't wanna talk about it

Don't give it up
Don't count on their loving
Don't give it up, don't try
Don't give it up
Don't count on their loving
Dont give it up, don't try

Don't wanna talk about it
Don't wanna talk about it

When I think that love was there
Don't wanna talk about it
Don't wanna talk about it
The pain we share
While they just talk about it
While they just talk about it

When I think that love was there

I was staring at the people
Lost and terrified
Turned and saw you crying
A victim of your pride

But you are no civilian
So open up your eyes

When I think that love was there
Don't wanna talk about it
Don't wanna talk about it
The pain we share
While they just talk about it
While they just talk about it
