Don't Talk About It

Culture Club

I was staring at the people Lost and terrified Turned and saw you smiling My heart was terrorised Lust among the millions Another suicide

When I think that love was there Don't wanna talk about it Don't wanna talk about it The pain we share
While they just talk about it While they just talk about it

A hand reached out to touch me A letter hit the pile I felt my life revolving Like fingers in a dial Just then I stopped believing But only for a while

When I think that love was there Don't wanna talk about it Don't wanna talk about it The pain we share

While they just talk about it While they just talk about it

When I think that love was there

Don't wanna talk about it Don't wanna talk about it

Don't give it up
Don't count on their loving
Don't give it up, don't try
Don't give it up
Don't count on their loving
Dont give it up, don't try

Don't wanna talk about it Don't wanna talk about it

When I think that love was there Don't wanna talk about it Don't wanna talk about it The pain we share
While they just talk about it While they just talk about it

When I think that love was there

I was staring at the people Lost and terrified Turned and saw you crying A victim of your pride But you are no civilian So open up your eyes

When I think that love was there Don't wanna talk about it
Don't wanna talk about it
The pain we share
While they just talk about it
While they just talk about it
