

## I Pray

Culture Club

When you hear them talking  
Saying things that you don't understand  
Just keep on walking  
And tell 'em you don't give a damn!

Don't call me brother, I ain't your brother

We need more than crime prevention  
We need more than ecstasy  
We'll be needing police protection  
Better keep your hands off me

And I pray, I pray  
I've been on my knees all day  
And I pray, I pray  
I hear every word you say

Take a look at that cat

It's a game they play with people  
Kiss and count the enemy  
I don't cry when I feel the tension  
I have state security

This ain't a revolution  
That's just people talking  
Ain't a revolution  
Say, say it again

If I never get caught  
I'll be here all night  
Doing things I know ain't right  
Fifty seven dreams ago

That's the problem if you're slow

I ain't your brother
