Man shake  
Man shake  
Man shake  
Man shake

I've got this nasty camera  
One snap it stole my soul  
If you're left feeling lonely  
One is the place to go

Now I never bothered  
With things I cannot see  
And now I've heard the drum track  
You're just a basic enemy

Man shake  
Man shake  
Man shake  
Man shake

I've told you out there, up there  
A promise you can't see  
But with your devil camera  
You take your chance with me

Now we're passing strangers  
Who knows what we'll be  
Tried to re-arrange us  
Who would shake your effigy

Man shake  
Man shake  
Man shake  
Man shake
