```
No defeat
Your dance is sweet
'Cause you ripped it from my soul
I'll kiss you
And we'll throw a view
It's the only way to take control
Boy I'm sweet
When you've got me beat
I can't turn it, I feel cold
It's for you
That my love is true
Got to blind a boy to take control
Take control (take it)
Take control (take it)
Take control (take it)
Take control
I was there
But you didn't care
And I know you're using me
(If it's true I've got the best of you)
Take control (take it)
Take control (take it)
Take control (take it)
Take control
Take control (god would let this thing go)
Take control (god would let this thing go)
Take control (god would let this thing go)
