

# Don't Love Her To Death

Cupid

This song is dedicated to the ones we've lost  
Sometimes the phrase "till death do us part" is misunderstood  
Please listen to the words of this song  
Please listen

Love is such a strong thing  
When we share our hearts  
Give so much to stay in it  
But sometimes it gets hard  
It can be so difficult  
Can you stand the rain (Can you stand the rain)  
Can you stand the situation  
When things start to change  
Give the love understanding  
But you don't have a right to hit her  
How would you like it if somebody beat up on your sister  
Or your momma

Hmmmmmm that wouldn't sit right with you  
So if that be the case  
Tell me who gives you that right to

Say things to someone that you love  
Or at least you say oh no  
But if you love her then you've gotta put that weapon away  
The gun, the knife, the hand, the fists, the words that hurt  
That's not something anyone deserves no no no no

So love your woman with all your heart  
But please don't love her to death no  
Love your girl with all your soul  
But please don't love her to death no  
Give her everything that she needs  
Oh yea but please don't love her to death no  
Love your girl with all your heart but  
Please don't love her to death no

If your son sees you beat his momma in the home  
What do you think is gonna happen when your son is grown  
He'll think it's okay and make the wrong decisions  
You can change the future of your son being in prison  
You can't blame that system  
You face that truth  
Just like that commercial say  
"I learned it from watching you"  
The killing's gotta stop  
The beating's gotta go  
And if it just ain't working  
Make the break up mutual

Love your woman with all of your heart  
But please don't love her to death no  
Love your girl with all of your soul  
But please don't love her to death no  
Love your girl with all of your heart  
But please don't love her to death no  
Love your woman with all of your heart

But please don't love her to death no

If you can't be with me  
Then you can't be with anyone at all  
If you hear that phrase  
Then you gotta go

If you can't communicate  
There's no need to stay at all  
If you can't just talk about it  
Then you gotta go

If you feel your life's in danger  
Then you hafta get away  
'Cuz life is just too precious  
For us to take for granted  
To change wat you can today

Love your woman with all of your heart  
But please don't love her to death no  
Give her everything that you can 'cuz you call yourself a man  
But please don't love her to death no  
She might do you wrong but it ain't worth it no no no no nooo  
But please don't love her to death no  
Love your woman with all of your heart  
But please don't love her to death no

I'm not telling you to be a fool but a fool is somebody who  
(that takes somebody's lyfe)  
But please don't love her to death
