Curren\$y

Never half ass, only get the dopest from me  
Rollin with the homie Ski  
My dog Fatts  
LBC

Even if the pot was to drop and break  
Fiends'll still pay top dollar  
For the shake flakes, they could scrape  
Eating off these fine rhymes, like china plates  
Instrumentals in my Bentley on the interstate  
Millionaires relate, cause I talk money  
My niggas on the grind say I talk foreign  
Using this art as a talk forum  
To spark notions, to start motion  
Hope for the hopeless  
Ain't know it when I wrote it  
But my lines saved a man life  
When I met him he told me  
In a meet and greet line with a jernt  
Him and his girl rolled for me  
Thats why I keep going G, Totally  
Never half ass, only get the dopest from me  
Rolling with the homie Ski  
Smoking that spoken warrior tree  
Green leaves, frosty with THC  
Produce mo', Studio Judo  
Sell out shows to cop mo' Chevy 2 Do's  
Build another house just for me to park those  
This is Curren\$y in muthafuckin' boss mode  
Currently running that Pilot Talk code  
Now raise your glasses if you want mo'  
We in the house like your closet though  
Im in yo bitch like a spinal chord  
All up her back nigga, you don't like that  
But she love it, thats why she does it  
Never displaying affection when we out in public  
Cause muthafuckas looking, and shit'll look ugly  
So walk right past me homegirl, and do not say nuttin'  
Secret locations we meet at, and then we cuttin'  
Money discussions, when my bottom  
Imma' pack twin Louis Vuitton duffle's  
We coming up, with another plan to get it  
Make sure the truck big enough to load all the cash in it  
Ferrari's 40-Yard Dashing  
Vanishing, behind gated mansion's  
Smoking to the fact we always know that we would have it  
It's turning out greater than we even had imagined  
Bored with some luxuries, I never thought I'd haven't  
Im just happy that when I see my momma she laughing  
Stashing more weight, just incase she asks me  
But she'll never need it cause she'll already have it  
All of this coming from rapping bout  
Last night action  
Last night madness  
These other rappers is not even challenging  
Or raising the bar  
They sneaking under it

Or trying to crawl past it  
We trying make classics here  
Throw that other shit in the trash its weird
