

## What's What

Curren\$y

I'm not new to this  
I grew in this  
Jet pimpin 420 vision maneuvering  
Not injured though limping when I walk  
That's that max julien who's cooler than  
Broke bitches don't waste time pursuing him  
I like my chicks speedy bag mini coopering  
Karmalooping shit  
I could use you bitch  
I see something in you  
We could blow up like time bombs  
If you got a open mind  
We could poke for a moment  
But not now  
Ya homie tryna do a lil bit more for you ma  
So it would be behoove you to play it cool  
Fake quality time with dude  
Laugh at his jokes cause he far from broke  
Fleece him for his dough  
Order some equipment for us put it in tha studio  
But we not sure who he know  
So we gotta keep it on tha low  
Keep him in tha blind and you can sneak out err night  
Get you back to ya house for tha sun come up bet homie won't know what's what
