

## You See It

Curren\$y

Poolside, too high, with three bitches  
With four lives, I'm finna deal  
Be out at 5 in that 600 Benz  
Or that 750i. Ate 9 slices of that humble pie.  
But you know I still talk my shit right  
What you tryna hear when you high?  
What you wish they played on the radio  
At least one time? It's cool though!  
We getting major paper on the underground  
You thought it was them other fools, though  
It was us the whole time!  
Them haters tryna deplete my shine like Venetian blinds  
But sun do what the sun do rise  
Hit the game like a Pinata tryna get a prize  
Out here, riding, got me my bottom bitch  
She give me the best top  
A sex pistol getting shotgun in the drop  
Best to wear your mittens, baby girl cause it's getting...

My top down, Bitch in a bikini.  
My weed lye, I know you here screamin'  
I'm here now, what's going on this evenin'  
You could look the other way but I know you see me  
I know you see it, I know you see it, I know you see it  
Nigga, I know you see it  
I know you see it, I know you see it  
You could look the other way, but I know you see it

Cross-eyed, a few drinks  
Cussing at the referee, his officiating stinks!  
Spitta Andretti, I'm money on wheels  
Like a Brink truck, way tough  
Nigga never budge, that's my space! What  
Marvel at my stance at your girl  
What she think, she can't even respond  
Cause her mind is now mine, fool  
I ain't lying, let's just cross the couch  
Sleeping with my shoes on just in case I have  
To wake up and be out  
Once again it's on  
Mama bring my bong to the game room  
With nothing but some panties on  
And them Bape socks that I gave you  
Never once on probation but your man's on his papers  
Spendin' them, stackin' them, feelin' them  
Wrappin' em, lightin' em, never passin' em  
I rolled it up myself and I don't remember your help  
That's how we do it now, fall through the jetset  
Man, bring your ounce, this is new jack city  
Baby girl rock them titties

My top down, Bitch in a bikini.  
My weed lye, I know you here screamin'  
I'm here now, what's going on this evenin'  
You could look the other way but I know you see me  
I know you see it, I know you see it, I know you see it  
Nigga, I know you see it

I know you see it, I know you see it  
You could look the other way, but I know you see it
