

Chasing

Current Swell

Got to get myself in order
All this time that i'm wasting
And now the colors are changing in the trees
And these days are getting shorter
But i'll leave them behind
And set myself out to find so i leave

And i will pack my things
And getting them ready to bring
Now i'm on my way
Because well i can't stay
Its me now
See i just got to leave now
I'll be out on my way now
But i'll see you here in the summer time
But some other time yeah

Got this burning off my shoulders
And i'm where i wanna be
And i swear i wont leave now till its time
Cause this waters so much warmer
The day that its colder
Is the day i am over the line

And i will pack my things
And getting them ready to bring
Now i'm on my way
Because well i can't stay its me now
See i just got to leave now
And i'll be out on my way now
But i'll see you here in the summer time
But some other time yeah...
Some other time yeah...
