Between You Baby and Me

Curtis Mayfield

Well, here we are It's kind of nice, we're like this Very special treat though, I like that

Between you baby and me, love I can't believe this feelin' You're so sweet honey, delicious All our world is true, true

You're so nice, a lot of talent, I like it Smooth and serious and I can be persuaded I truly, truly, truly adore you, how I adore you Take me in a precious way, precious way

You and me baby, between us, just between us
Make all the stars glow from our eyes
All the treasured pleasure emotions, love's emotions
Nothing to lose but a try, try

A try, oh baby It's like dancing when romancing with you love, oh baby We get down, get down and move all around

Swaying, swaying, laying, embrace me Embrace me, please embrace me We two just getting down Get down for me, baby

You and me baby, between us, just between us Make all the stars glow from our eyes All the treasured pleasure, emotions, love's sweet emotions There's nothing to lose but a try, try me, baby

Try me, between you baby and me, love
Between you and me, I can't believe if this feelin'
I want you to believe it
You're so sweet, sweet honey, delicious
Baby, and all our world is true, it's so true

All our world is true
Yes indeed, it's really me and you
Me and you little mama
Dancing, romancing

Get down for me baby, baby
Just embrace me, embrace me one more time
You know I want to, baby, ooh sweet embrace
You know I need to, baby, oh, my love

All our world is true, it's true
