

In Love, In Love, In Love

Curtis Mayfield

I've opened up my eyes to see this love is the real thing
Bright stars shining through the night is how clearly your heart sees
Life's hardships are just short trips and you [Incomprehensible]
What is better doesn't matter, just to be with you than that

Your face glows so bright, the sun's out tonight
The sun's out tonight, the sun's out tonight

In love, in love, in love
In love, in love, in love
In love, in love, in love
In love, in love, in love

I always feel so free to say this love is the real thing
In doing so naturally, the truth of time is all I see
I sing to you and give to you my one and only soul
What is better doesn't matter, you are my one and only goal

Your face glows so bright, the sun 's out tonight
The sun's out tonight, the sun's out tonight

In love, in love, in love
In love, in love, in love
I'm in love, in love, in love
In love, in love, in love

Oh baby, baby, you drive me crazy
Can it be, can be it that you're the only thing for me?

I'm in love, in love, in love
In love, in love, in love
In love, in love, in love
In love, in love, in love, in love
In love, in love
