

## Oh So Beautiful

Curtis Mayfield

Let's not forget, though trying times there are  
We have not lost the war, by far  
Still work to be done  
And as the old hymn says,  
We all can overcome  
Let's not forget the sunrise in the sky  
The love and wonders why  
You don't do or die  
But at best you try  
Don't let life pass you by  
Do what you do when you're feeling free  
You can be what you want to be  
Open your mind and you can see  
Baby let's not forget this love is all we need  
Kiss me once and maybe kiss me twice  
Sweetens the spice of life my child  
Just give me a smile  
It is your big world to make it all worthwhile

Let's not forget advice on love today  
I'm really not so wise this way  
So what do you say  
Two loving human beings  
Just trying to make a way  
Do what you do when you're feeling free  
You can be what you want to be  
Open your mind and you can see  
Baby let's not forget this love is all we need  
My baby my baby my baby  
Do what you do, do what you do  
Do what you do when you're feeling free  
You can be what you want to be  
Open your mind and you can see  
Baby let's not forget this love is all we need
