

# We Got to Have Peace

Curtis Mayfield

We got have peace  
To keep the world alive  
And war to cease.

We got to have joy,  
True in our hearts  
With strength we can't destroy.

People please hear us (people please hear us)  
Through our voice the world knows  
There's no choice.

We're begging save the children  
The little ones  
Who just don't understand

Give them a chance  
To breed their young  
And help purify the land

People please hear us (people please hear us)  
Through our voice the world knows  
There's no choice.

And the people in the neighbourhood,  
Who would if they only could,  
Meet and shake the other's hand,  
Work together for the good of the land.

Give us all an equal chance,  
It could be such a sweet romance.  
And the soldiers who are dead and gone,  
If only we could bring back one,

He'd say "We've got to have peace"  
To keep the world alive  
And war to cease

We got to have joy  
Ture in our hearts  
With strength we can't destroy

People please hear us (people please hear us)  
Through our voice the world knows  
There's no choice

And the people in the neighbourhood  
Who would if they only could  
Meet and shake the other's hand  
Work together for the good of the land

Give us all an equal chance  
It could be such a sweet romance  
And the soldiers who are dead and gone  
If only we could bring back one

He'd say "We've got to have peace"

Aah - hah, we got to have peace  
Let Let the world know it

Peace, peace, peace  
Aah - hah, we got to have peace

People please hear us (people please hear us)  
Through our voice the world knows  
There's no choice

Save the children

Save the children

Save the children

And the people in the neighbourhood  
Who would if they only could  
Meet and shake the other's hand  
Work together for the good of the land

Give us all an equal chance  
It could be such a sweet romance  
And the soldiers who are dead and gone  
If only we could bring back one

He'd say "We've got to have peace"  
Lo - rd, we got to have peace

Let the people say it

Peace peace peace  
Aah - hah, we got to have peace
