

## Every Time You Cry

Curtis Stigers

Never before have I seen you look so blue  
Can't find the cure and nothing comforts you  
The light at the end of the tunnel  
Doesn't shine at the end of the day  
Every time you cry  
Save up all your tears, I will be your rainbow  
When they disappear  
Wash away the pain 'til you smile again  
I will be the laughter in your eyes  
Every time you cry  
Every time you cry  
Time has a way of wounding what has healed  
What can I say, I know just how you feel  
Your soul is dark and troubled  
Like a river running wild  
Every time you cry  
Save up all your tears, I will be your rainbow  
When they disappear  
Wash away the pain 'til you smile again  
I will be the one who dries your eyes  
Every time you cry  
Every time you cry  
Well you know that's what I'm here for  
And I will give you when you need more  
There'll be no hesitation, I will reap no reward
